

Dear representatives of International FBN community,

This initiative is supported in coordination with the Office of the President of Ukraine and Ukraine's Armed Forces.

Ukraine is facing an unprecedented challenge. Our brave soldiers and civilians defend not only Ukrainian land and values, but the whole Western world. We are on the frontline and we need your help! Please support us in our fight by donating the badly needed medical supplies! We have organized the logistics chain that will facilitate the transfer of goods from Poland's warehouse directly to our defenders all over the country.

Please see www.helpukraine.center for details on what medical aid is needed and where to send.
